Renee,

Thank you again for organizing the discussion session. Highlighted below are the response to the questions that were raised during the discussion.

- **PowerPoint**

The PowerPoint slides are attached.

- **Bridge program: 6-20 feet structures**

Dane County has received inventories from majority of the Towns and have submitted most of them to WisDOT for payment. We recently received payment from WisDOT for the ones that have been uploaded into DOT's systems. We are currently processing the payment for majority of the inventories that were received, and they should be receiving payment soon.

Regarding inspection, Dane County chose the option to have a consultant, selected by WisDOT, to complete the inspection for the structures on the local system. The selected consultant was CEDP, Inc.. They will be completing the inspections on behalf of the local municipalities in Dane County.

To date, I don't believe we have received the inventory spreadsheet from the following Towns listed below. Dane County will be following up with all of them later this week to ensure that inventory data are submitted at the latest, 1 week prior to the end of the year. Please assist us with informing these Towns to submit their inventory data spreadsheet.

Town of Black Earth
Town of Blooming Grove
Town of Burke
Town of Christiana
Town of Cross Plains
Town of Deerfield
Town of Middleton
Town of Montrose

Town of Perry
Town of Primrose
Town of Springfield

If you have any additional questions about this program please feel free to contact Brian Rice @ (608) 513-1526, who is also included in this email.

We look forward to working and collaborating with the Town Association.

Sincerely,

**Clement Abongwa**
